

CONTINGENCY PLANNING	CP-1	CP-1	CONTINGENCY PLANNING POLICY AND PROCEDURES	The organization:
CONTINGENCY PLANNING	CP-1	CP-1a	CONTINGENCY PLANNING POLICY AND PROCEDURES	Develops, documents, and disseminates to [Assignment: organization-defined personnel or roles]:
CONTINGENCY PLANNING	CP-1	CP-1a.1	CONTINGENCY PLANNING POLICY AND PROCEDURES	A contingency planning policy that addresses purpose, scope, roles, responsibilities, management commitment, coordination among organizational entities, and compliance; and
CONTINGENCY PLANNING	CP-1	CP-1a.2	CONTINGENCY PLANNING POLICY AND PROCEDURES	Procedures to facilitate the implementation of the contingency planning policy and associated contingency planning controls; and
CONTINGENCY PLANNING	CP-1	CP-1b	CONTINGENCY PLANNING POLICY AND PROCEDURES	Reviews and updates the current:
CONTINGENCY PLANNING	CP-1	CP-1b.1	CONTINGENCY PLANNING POLICY AND PROCEDURES	Contingency planning policy [Assignment: organization-defined frequency]; and
CONTINGENCY PLANNING	CP-1	CP-1b.2	CONTINGENCY PLANNING POLICY AND PROCEDURES	Contingency planning procedures [Assignment: organization-defined frequency].

CONTINGENCY PLANNING	CP-2	CP-2	CONTINGENCY PLAN	The organization:
-------------------------	------	------	------------------	-------------------

CONTINGENCY PLANNING	CP-2	CP-2a	CONTINGENCY PLAN	Develops a contingency plan for the information system that:
-------------------------	------	-------	------------------	--

CONTINGENCY PLANNING	CP-2	CP-2a.1	CONTINGENCY PLAN	Identifies essential missions and business functions and associated contingency requirements;
-------------------------	------	---------	------------------	---

CONTINGENCY PLANNING	CP-2	CP-2a.2	CONTINGENCY PLAN	Provides recovery objectives, restoration priorities, and metrics;
-------------------------	------	---------	------------------	--

CONTINGENCY PLANNING	CP-2	CP-2a.3	CONTINGENCY PLAN	Addresses contingency roles, responsibilities, assigned individuals with contact information;
-------------------------	------	---------	------------------	--

CONTINGENCY PLANNING	CP-2	CP-2a.4	CONTINGENCY PLAN	Addresses maintaining essential missions and business functions despite an information system disruption, compromise, or failure;
-------------------------	------	---------	------------------	---

CONTINGENCY PLANNING	CP-2	CP-2a.5	CONTINGENCY PLAN	Addresses eventual, full information system restoration without deterioration of the security safeguards originally planned and implemented; and
-------------------------	------	---------	------------------	---

CONTINGENCY PLANNING	CP-2	CP-2a.6	CONTINGENCY PLAN	Is reviewed and approved by [Assignment: organization-defined personnel or roles];
-------------------------	------	---------	------------------	---

CONTINGENCY PLANNING	CP-2	CP-2b	CONTINGENCY PLAN	Distributes copies of the contingency plan to [Assignment: organization-defined key contingency personnel (identified by name and/or by role) and organizational elements];
-------------------------	------	-------	------------------	--

CONTINGENCY PLANNING	CP-2	CP-2c	CONTINGENCY PLAN	Coordinates contingency planning activities with incident handling activities;
-------------------------	------	-------	------------------	---

CONTINGENCY PLANNING	CP-2	CP-2d	CONTINGENCY PLAN	Reviews the contingency plan for the information system [Assignment: organization-defined frequency];
-------------------------	------	-------	------------------	---

CONTINGENCY PLANNING	CP-2	CP-2e	CONTINGENCY PLAN	Updates the contingency plan to address changes to the organization, information system, or environment of operation and problems encountered during contingency plan implementation, execution, or testing;
-------------------------	------	-------	------------------	--

CONTINGENCY PLANNING	CP-2	CP-2f	CONTINGENCY PLAN	Communicates contingency plan changes to [Assignment: organization-defined key contingency personnel (identified by name and/or by role) and organizational elements]; and
-------------------------	------	-------	------------------	--

CONTINGENCY PLANNING	CP-2	CP-2g	CONTINGENCY PLAN	Protects the contingency plan from unauthorized disclosure and modification.
CONTINGENCY PLANNING	CP-2 (1)	CP-2 (1)	COORDINATE WITH RELATED PLANS	The organization coordinates contingency plan development with organizational elements responsible for related plans.
CONTINGENCY PLANNING	CP-2 (2)	CP-2 (2)	CAPACITY PLANNING	The organization conducts capacity planning so that necessary capacity for information processing, telecommunications, and environmental support exists during contingency operations.
CONTINGENCY PLANNING	CP-2 (3)	CP-2 (3)	RESUME ESSENTIAL MISSIONS / BUSINESS FUNCTIONS	The organization plans for the resumption of essential missions and business functions within [Assignment: organization-defined time period] of contingency plan activation.

CONTINGENCY PLANNING	CP-2 (4)	CP-2 (4)	RESUME ALL MISSIONS / BUSINESS FUNCTIONS	The organization plans for the resumption of all missions and business functions within [Assignment: organization-defined time period] of contingency plan activation.
CONTINGENCY PLANNING	CP-2 (5)	CP-2 (5)	CONTINUE ESSENTIAL MISSIONS / BUSINESS FUNCTIONS	The organization plans for the continuance of essential missions and business functions with little or no loss of operational continuity and sustains that continuity until full information system restoration at primary processing and/or storage sites.
CONTINGENCY PLANNING	CP-2 (6)	CP-2 (6)	ALTERNATE PROCESSING / STORAGE SITE	The organization plans for the transfer of essential missions and business functions to alternate processing and/or storage sites with little or no loss of operational continuity and sustains that continuity through information system restoration to primary processing and/or storage sites.
CONTINGENCY PLANNING	CP-2 (7)	CP-2 (7)	COORDINATE WITH EXTERNAL SERVICE PROVIDERS	The organization coordinates its contingency plan with the contingency plans of external service providers to ensure that contingency requirements can be satisfied.
CONTINGENCY PLANNING	CP-2 (8)	CP-2 (8)	IDENTIFY CRITICAL ASSETS	The organization identifies critical information system assets supporting essential missions and business functions.
CONTINGENCY PLANNING	CP-3	CP-3	CONTINGENCY TRAINING	The organization provides contingency training to information system users consistent with assigned roles and responsibilities:
CONTINGENCY PLANNING	CP-3	CP-3a	CONTINGENCY TRAINING	Within [Assignment: organization-defined time period] of assuming a contingency role or responsibility;
CONTINGENCY PLANNING	CP-3	CP-3b	CONTINGENCY TRAINING	When required by information system changes; and

CONTINGENCY PLANNING	CP-3	CP-3c	CONTINGENCY TRAINING	[Assignment: organization-defined frequency] thereafter.
CONTINGENCY PLANNING	CP-3 (1)	CP-3 (1)	SIMULATED EVENTS	The organization incorporates simulated events into contingency training to facilitate effective response by personnel in crisis situations.
CONTINGENCY PLANNING	CP-3 (2)	CP-3 (2)	AUTOMATED TRAINING ENVIRONMENTS	The organization employs automated mechanisms to provide a more thorough and realistic contingency training environment.
CONTINGENCY PLANNING	CP-4	CP-4	CONTINGENCY PLAN TESTING	The organization:
CONTINGENCY PLANNING	CP-4	CP-4a	CONTINGENCY PLAN TESTING	Tests the contingency plan for the information system [Assignment: organization-defined frequency] using [Assignment: organization-defined tests] to determine the effectiveness of the plan and the organizational readiness to execute the plan;
CONTINGENCY PLANNING	CP-4	CP-4b	CONTINGENCY PLAN TESTING	Reviews the contingency plan test results; and
CONTINGENCY PLANNING	CP-4	CP-4c	CONTINGENCY PLAN TESTING	Initiates corrective actions, if needed.
CONTINGENCY PLANNING	CP-4 (1)	CP-4 (1)	COORDINATE WITH RELATED PLANS	The organization coordinates contingency plan testing with organizational elements responsible for related plans.
CONTINGENCY PLANNING	CP-4 (2)	CP-4 (2)	ALTERNATE PROCESSING SITE	The organization tests the contingency plan at the alternate processing site:
CONTINGENCY PLANNING	CP-4 (2)	CP-4 (2)(a)	ALTERNATE PROCESSING SITE	To familiarize contingency personnel with the facility and available resources; and
CONTINGENCY PLANNING	CP-4 (2)	CP-4 (2)(b)	ALTERNATE PROCESSING SITE	To evaluate the capabilities of the alternate processing site to support contingency operations.

CONTINGENCY PLANNING	CP-4 (3)	CP-4 (3)	AUTOMATED TESTING	The organization employs automated mechanisms to more thoroughly and effectively test the contingency plan.
CONTINGENCY PLANNING	CP-4 (4)	CP-4 (4)	FULL RECOVERY / RECONSTITUTION	The organization includes a full recovery and reconstitution of the information system to a known state as part of contingency plan testing.
CONTINGENCY PLANNING	CP-5	CP-5	CONTINGENCY PLAN UPDATE	[Withdrawn: Incorporated into CP-2].
CONTINGENCY PLANNING	CP-6	CP-6	ALTERNATE STORAGE SITE	The organization:
CONTINGENCY PLANNING	CP-6	CP-6a	ALTERNATE STORAGE SITE	Establishes an alternate storage site including necessary agreements to permit the storage and retrieval of information system backup information; and
CONTINGENCY PLANNING	CP-6	CP-6b	ALTERNATE STORAGE SITE	Ensures that the alternate storage site provides information security safeguards equivalent to that of the primary site.
CONTINGENCY PLANNING	CP-6 (1)	CP-6 (1)	SEPARATION FROM PRIMARY SITE	The organization identifies an alternate storage site that is separated from the primary storage site to reduce susceptibility to the same threats.

CONTINGENCY PLANNING	CP-6 (2)	CP-6 (2)	RECOVERY TIME / POINT OBJECTIVES	The organization configures the alternate storage site to facilitate recovery operations in accordance with recovery time and recovery point objectives.
CONTINGENCY PLANNING	CP-6 (3)	CP-6 (3)	ACCESSIBILITY	The organization identifies potential accessibility problems to the alternate storage site in the event of an area-wide disruption or disaster and outlines explicit mitigation actions.
CONTINGENCY PLANNING	CP-7	CP-7	ALTERNATE PROCESSING SITE	The organization:
CONTINGENCY PLANNING	CP-7	CP-7a	ALTERNATE PROCESSING SITE	Establishes an alternate processing site including necessary agreements to permit the transfer and resumption of [Assignment: organization-defined information system operations] for essential missions/business functions within [Assignment: organization-defined time period consistent with recovery time and recovery point objectives] when the primary processing capabilities are unavailable;

CONTINGENCY PLANNING	CP-7	CP-7b	ALTERNATE PROCESSING SITE	Ensures that equipment and supplies required to transfer and resume operations are available at the alternate processing site or contracts are in place to support delivery to the site within the organization-defined time period for transfer/resumption; and
CONTINGENCY PLANNING	CP-7	CP-7c	ALTERNATE PROCESSING SITE	Ensures that the alternate processing site provides information security safeguards equivalent to those of the primary site.
CONTINGENCY PLANNING	CP-7 (1)	CP-7 (1)	SEPARATION FROM PRIMARY SITE	The organization identifies an alternate processing site that is separated from the primary processing site to reduce susceptibility to the same threats.
CONTINGENCY PLANNING	CP-7 (2)	CP-7 (2)	ACCESSIBILITY	The organization identifies potential accessibility problems to the alternate processing site in the event of an area-wide disruption or disaster and outlines explicit mitigation actions.

CONTINGENCY PLANNING	CP-7 (3)	CP-7 (3)	PRIORITY OF SERVICE	The organization develops alternate processing site agreements that contain priority-of-service provisions in accordance with organizational availability requirements (including recovery time objectives).
CONTINGENCY PLANNING	CP-7 (4)	CP-7 (4)	PREPARATION FOR USE	The organization prepares the alternate processing site so that the site is ready to be used as the operational site supporting essential missions and business functions.
CONTINGENCY PLANNING	CP-7 (5)	CP-7 (5)	EQUIVALENT INFORMATION SECURITY SAFEGUARDS	[Withdrawn: Incorporated into CP-7].
CONTINGENCY PLANNING	CP-7 (6)	CP-7 (6)	INABILITY TO RETURN TO PRIMARY SITE	The organization plans and prepares for circumstances that preclude returning to the primary processing site.
CONTINGENCY PLANNING	CP-8	CP-8	TELECOMMUNICATIONS SERVICES	The organization establishes alternate telecommunications services including necessary agreements to permit the resumption of [Assignment: organization-defined information system operations] for essential missions and business functions within [Assignment: organization-defined time period] when the primary telecommunications capabilities are unavailable at either the primary or alternate processing or storage sites.

CONTINGENCY PLANNING	CP-8 (1)	CP-8 (1)	PRIORITY OF SERVICE PROVISIONS	The organization:
CONTINGENCY PLANNING	CP-8 (1)	CP-8 (1)(a)	PRIORITY OF SERVICE PROVISIONS	Develops primary and alternate telecommunications service agreements that contain priority-of-service provisions in accordance with organizational availability requirements (including recovery time objectives); and

CONTINGENCY PLANNING	CP-8 (1)	CP-8 (1)(b)	PRIORITY OF SERVICE PROVISIONS	Requests Telecommunications Service Priority for all telecommunications services used for national security emergency preparedness in the event that the primary and/or alternate telecommunications services are provided by a common carrier.
CONTINGENCY PLANNING	CP-8 (2)	CP-8 (2)	SINGLE POINTS OF FAILURE	The organization obtains alternate telecommunications services to reduce the likelihood of sharing a single point of failure with primary telecommunications services.
CONTINGENCY PLANNING	CP-8 (3)	CP-8 (3)	SEPARATION OF PRIMARY / ALTERNATE PROVIDERS	The organization obtains alternate telecommunications services from providers that are separated from primary service providers to reduce susceptibility to the same threats.
CONTINGENCY PLANNING	CP-8 (4)	CP-8 (4)	PROVIDER CONTINGENCY PLAN	The organization:
CONTINGENCY PLANNING	CP-8 (4)	CP-8 (4)(a)	PROVIDER CONTINGENCY PLAN	Requires primary and alternate telecommunications service providers to have contingency plans;
CONTINGENCY PLANNING	CP-8 (4)	CP-8 (4)(b)	PROVIDER CONTINGENCY PLAN	Reviews provider contingency plans to ensure that the plans meet organizational contingency requirements; and

CONTINGENCY PLANNING	CP-8 (4)	CP-8 (4)(c)	PROVIDER CONTINGENCY PLAN	Obtains evidence of contingency testing/training by providers [Assignment: organization-defined frequency].
CONTINGENCY PLANNING	CP-8 (5)	CP-8 (5)	ALTERNATE TELECOMMUNICATIO N SERVICE TESTING	The organization tests alternate telecommunication services [Assignment: organization-defined frequency].
CONTINGENCY PLANNING	CP-9	CP-9	INFORMATION SYSTEM BACKUP	The organization:
CONTINGENCY PLANNING	CP-9	CP-9a	INFORMATION SYSTEM BACKUP	Conducts backups of user-level information contained in the information system [Assignment: organization-defined frequency consistent with recovery time and recovery point objectives];

CONTINGENCY PLANNING	CP-9	CP-9b	INFORMATION SYSTEM BACKUP	Conducts backups of system-level information contained in the information system [Assignment: organization-defined frequency consistent with recovery time and recovery point objectives];
CONTINGENCY PLANNING	CP-9	CP-9c	INFORMATION SYSTEM BACKUP	Conducts backups of information system documentation including security-related documentation [Assignment: organization-defined frequency consistent with recovery time and recovery point objectives]; and

CONTINGENCY PLANNING	CP-9	CP-9d	INFORMATION SYSTEM BACKUP	Protects the confidentiality, integrity, and availability of backup information at storage locations.
CONTINGENCY PLANNING	CP-9 (1)	CP-9 (1)	TESTING FOR RELIABILITY / INTEGRITY	The organization tests backup information [Assignment: organization-defined frequency] to verify media reliability and information integrity.
CONTINGENCY PLANNING	CP-9 (2)	CP-9 (2)	TEST RESTORATION USING SAMPLING	The organization uses a sample of backup information in the restoration of selected information system functions as part of contingency plan testing.
CONTINGENCY PLANNING	CP-9 (3)	CP-9 (3)	SEPARATE STORAGE FOR CRITICAL INFORMATION	The organization stores backup copies of [Assignment: organization-defined critical information system software and other security-related information] in a separate facility or in a fire-rated container that is not collocated with the operational system.
CONTINGENCY PLANNING	CP-9 (4)	CP-9 (4)	PROTECTION FROM UNAUTHORIZED MODIFICATION	[Withdrawn: Incorporated into CP-9].
CONTINGENCY PLANNING	CP-9 (5)	CP-9 (5)	TRANSFER TO ALTERNATE STORAGE SITE	The organization transfers information system backup information to the alternate storage site [Assignment: organization-defined time period and transfer rate consistent with the recovery time and recovery point objectives].

CONTINGENCY PLANNING	CP-9 (6)	CP-9 (6)	REDUNDANT SECONDARY SYSTEM	The organization accomplishes information system backup by maintaining a redundant secondary system that is not collocated with the primary system and that can be activated without loss of information or disruption to operations.
CONTINGENCY PLANNING	CP-9 (7)	CP-9 (7)	DUAL AUTHORIZATION	The organization enforces dual authorization for the deletion or destruction of [Assignment: organization-defined backup information].
CONTINGENCY PLANNING	CP-10	CP-10	INFORMATION SYSTEM RECOVERY AND RECONSTITUTION	The organization provides for the recovery and reconstitution of the information system to a known state after a disruption, compromise, or failure.
CONTINGENCY PLANNING	CP-10 (1)	CP-10 (1)	CONTINGENCY PLAN TESTING	[Withdrawn: Incorporated into CP-4].
CONTINGENCY PLANNING	CP-10 (2)	CP-10 (2)	TRANSACTION RECOVERY	The information system implements transaction recovery for systems that are transaction-based.
CONTINGENCY PLANNING	CP-10 (3)	CP-10 (3)	COMPENSATING SECURITY CONTROLS	[Withdrawn: Addressed through tailoring procedures].
CONTINGENCY PLANNING	CP-10 (4)	CP-10 (4)	RESTORE WITHIN TIME PERIOD	The organization provides the capability to restore information system components within [Assignment: organization-defined restoration time-periods] from configuration-controlled and integrity-protected information representing a known, operational state for the components.
CONTINGENCY PLANNING	CP-10 (5)	CP-10 (5)	FAILOVER CAPABILITY	[Withdrawn: Incorporated into SI-13].

CONTINGENCY PLANNING	CP-10 (6)	CP-10 (6)	COMPONENT PROTECTION	The organization protects backup and restoration hardware, firmware, and software.
CONTINGENCY PLANNING	CP-11	CP-11	ALTERNATE COMMUNICATIONS PROTOCOLS	The information system provides the capability to employ [Assignment: organization-defined alternative communications protocols] in support of maintaining continuity of operations.
CONTINGENCY PLANNING	CP-12	CP-12	SAFE MODE	The information system, when [Assignment: organization-defined conditions] are detected, enters a safe mode of operation with [Assignment: organization-defined restrictions of safe mode of operation].
CONTINGENCY PLANNING	CP-13	CP-13	ALTERNATIVE SECURITY MECHANISMS	The organization employs [Assignment: organization-defined alternative or supplemental security mechanisms] for satisfying [Assignment: organization-defined security functions] when the primary means of implementing the security function is unavailable or compromised.
